MI-Access 1% Cap Exception Application List

General Information on the 1% Cap

Federal policy requires that the MDE provide an application process for districts to exceed the 1% cap for students taking alternate assessments. By default, not more that 1% of proficient MI-Access scores can contribute as proficient scores for scorecard purposes; those students with proficient scores above the 1% score inclusion cap will count as *not proficient* for scorecard purposes. More information can be found in this presentation at: http://www.michigan.gov/documents/mde/MI-Access Cap Exception Information 459065 7 516453 7.pdf.

Information on the List Districts with Waivers Below

Listed below is the CURRENT list of school districts with approved 1% cap exception applications for appealing the proficiency of Special Education students during the 2015-16 preliminary scorecard window that will be available this fall. This list does NOT mean that the districts NOT listed below cannot assess students using the MI-Access assessment portfolio. It also does NOT mean that the districts NOT listed below are limited on how many students can take a test from the MI-Access assessment portfolio. Districts should continue to administer the assessment determined to be the most appropriate for the individual student by content area as determined by their IEP team. What the list below DOES mean is that the districts NOT listed below, are subject to a 1% cap for counting proficient MI-Access scores as proficient for scorecard purposes. Districts that ARE listed below will be able to count up to 2% of their proficient MI-Access scores as proficient for scorecard purposes if doing so would increase the overall scorecard status color for your school district. 1% cap exception waivers are valid for 3 years of scorecards, so an approved application in the spring/summer of 2016 will allow a school district to submit 1% cap appeals on their scorecards for the 2015-16, 2016-17, and 2017-18 school year scorecard appeals windows.

Meaning of Expiration Date Listed Below

The 1% cap exception waiver expiration dates listed in the table below are meant to indicate the last preliminary scorecard appeals window that a district's waiver will be valid through. A waiver expiration date of 12/1/2017 means that the district will be allowed to submit 1% cap exception appeals during the 2015-16 AND 2016-17 preliminary scorecard windows. A district with this expiration date will not need to reapply for a 1% cap exception waiver until the spring 2018 1% cap exception application window in order to renew their application and to submit 1% cap exception appeals during the 2017-18 preliminary scorecard window.

Applying/Reapplying

Districts needing to apply/reapply can do so in the spring exception application window, offered in the Secure Site. The application window to apply/reapply was available in the Secure Site until 5:00PM on Monday, August 29, 2016. If a district NOT listed below was to apply in the spring 2016 window and was approved, they would be able to appeal their 1% MI-Access proficiency cap on 2015-16, 2016-17, and 2017-18 preliminary scorecards as approved applications are good for appealing 3 consecutive preliminary scorecard appeal windows.

List of Currently Approved 1% Cap Exception Waivers
